Product Code:

9691

BRAKE CLEANER

Special Cleaner for Degreasing Metal Surfaces

Solvent mixture for degreasing and cleaning metal parts. Designed as an effective cleaner and degreaser for cleaning and degreasing brake drums, discs, linings, pads, cylinders and clutch separate parts. Provides fast and effective removal of dirt, dust, grease and brake fluid. Dries quickly and leaves no residue.

Features and Benefits:
- Removes brake fluid, oil, tar, grease and other contaminants
- Cleans without disassembly
- Eliminates brake squeaks and clutch slippage caused by dirt and shiny surfaces
- Dries quickly without leaving residues

Application:
Apply by spraying, brushing or dipping, observing safety rules when working with flammable liquids. Allow to soak in and wipe dry.

Storage:
Store at temperatures below 50 °C, avoid direct sunlight.

Volume:

20L	MN9691-20
60L	MN9691-60
